IDEMIA

IDEMIA MorphoManager software

Range of 3 part numbers

Enrolment and management software for IDEMIA biometric readers (SIGMA, MorphoWave, VisionPass): up to 100,000 users and 5,000 terminals. It is sold on its own, as a LIGHT pack with the MSO 1300 USB enrolment reader (single PC, small installations), or as a client/server PRO pack with the MSO 300 enrolment reader (medium to large installations).

Key features

- Up to 100,000 users and 5,000 biometric terminals
- Fingerprints (up to 10 fingers) and 3D face in a single software
- Encodes MIFARE®, DESFire®, iCLASS and Seos badges
- Standalone or connected to an existing access control software
- Reports and export of clocking data to payroll

Applications

- Central management of SIGMA, MorphoWave and VisionPass readers
- Access control and time & attendance

Range options

Version	Software only / LIGHT + MSO 1300 USB enrolment reader / PRO client/server + MSO 300 enrolment reader

This sheet presents a range. Photos and text describe all the variants: the features of a product depend on the part number chosen. SCAP confirms the right part number for your need with your quote.
